The Wily Ball Players. CHICAGO, Sept. 14.—Hints of various kinds touching an important move to be made by the Brotherhood of Base-ball Players have been published recently, but none of them have covered the ground. The Journal, this afternoon, publishes the following: The report that the Brotherhood of Base-ball Players intend to take the game out of the hands of the present owners of the League clubs seems to have some foundation. They are preparing to "gobble" the whole business, grounds, players, audiences and all. And what is more, they don't propose to lose any time in doing it.

The probabilities are that by the close of the present League season the plans of the

the present League season the plans of the Brotherhood will be well enough matured to warrant a public acknowledgement of their intentions. Just at present they are not giving away any more of the particulars than they can help. Mr. Spalding, however, got a quiet tip of what was going on the other day, and it came in a way calon the other day, and it came in a way cal-culated to confirm the rumor of organized opposition. The Chicago ball club's lease on its present grounds, at the corner of Congress and Loomis streets, expires this year, and some time ago Mr. Spalding bought a site for a new park near the county hospital. He was given to understand by the contractors that they would have the new grounds ready for use at the opening games next season, and relying upon their promises, he notified the owners of the old park that he would not renew the lease. A few days ago Mr. Spalding inspected his new purchase and, instead of finding the carpenters and landscape gardeners at work, as he expected, saw only a few lazy teamsters dumping ashes and garbage in a seemingly bottomless hole.

Mr. Spalding was mad. He recognized the fact that it would be impossible to put

the fact that it would be impossible to put
the grounds in shape for the opening games
and thought he would re-lease the old park.
When he called upon the owner, however,
with that object he was given to understand that he was too late. An option had
been taken by a responsible Chicagoan and
he refused to surrender it. Not only this,
but the gentleman had said that he wanted
the ground to play ball on. And he does.
That gentleman is the agent here of the
brotherhood, and has worked things so
well that the Chicago ball club will not well that the Chicago ball club will not only be without grounds next season, but without players as well, that is, good ones, The plan of the brotherhood is to run

the game, so far as the League cities are concerned, on a sort of co-operative basis. If it succeeds, then the other associations may be similarly re-or-ganized. It is proposed to place the man-agement of the whole affair in the hands of agement of the whole affair in the hands of a general committee of eight, consisting of one representative from each League club. These clubs will probably be formed in New York, Boston, Chicago, Philadelphia, Brooklyn, Cincinnati, Washington and Cleveland or St. Louis. Each club will have a stock capital of \$20,000, some of which will be taken by the players, and the rest, by the man who are to set age of the rest by the men who are to act as officers and financial backers. In this city there are already five applicants for every dollar's worth of stock, and the scheme has been only confidentially broached to a baker's dozen of men. One of the largest investors here is Fred Pfeffer, who has accumulated about \$40,000, and is in a shape to take some chances. Pfeffer, it may be added, will probably be the manager of the Chicago club under the new regime. The players are to receive a small, but fair salary, and a percentage of the net profits. The receipts, after all expenses, including The receipts, after all expenses, including the players' salaries and percentages are paid, are to be put into a pool and divided into eight equal parts, one share going to each club. It is hoped by this to bring the cities all on the same financial footing and do away with the claim that the strong cities are making money at the expense of the weak. From each club's share of the net profits a stated amount will be paid into a sinking fund and the rest paid out in dividends on stock.

Another new feature will be the hanging up of big money prizes for the first and sec-ond, and perhaps third, clubs in the championship race. The amount has not been yet determined, but it has been suggested that each club put, say \$5.000 in the pool at the opening of the season. This would make \$40,000 to play for, of which the winning team would take \$25,000, the second \$10,000 and the third \$5,000. This would, it is believed, invest the game with an interest which does not now attach to the flying of a mere championship pennant. The projectors of this new system do not intend that the game shall deteriorate either in its attractiveness, the skill of the playin its attractiveness, the skill of the players, or the personnel of the audiences. There will be no Sunday games, no liquor selling on the grounds, and but little change in the prices of admission, unless a motion, now under debate, to reduce the "bleaching-board" tickes to 25 cents, should

Scheme to Municipalize London Docks.

Special to the Indianapolis Journal. LONDON, Sept. 14.-The success of the dock-vard strikers and the others who struck in sympathy with them ushers in a well-defined movement towards municipalizing the docks. Already John Burns, to whose masterful direction much of the success of the strike is due, is preparing a scheme for submission to the county council contemplating the absorption of the docks by the municipality at a reasonable price. The present aggregate capital of the dock companies, £20,000,000, represents a great deal of water, and a great many jobs of questionable character. The month's struggle between the determined dock laborers and their equally obstinate employers has had the effect to purge and purify the poorest of London's proletariat, while it also led to disclosures of the peculiar methods em-ployed by the dock companies to squeeze ployed by the dock companies to squeeze customer and employe at the same time. Mr. Burns, in his speeches, constantly urged the men to improve their homes and avoid liquor-shops, and one of the features of the daily meetings of the strikers has been the large number of men who have signed the pledge. The discipline, tolerance and intelligent grasp of the main subject displayed by the men were miraculous, and have had more influence upon capital than anything that the capitalists have before had to contend with.

ary seat for Dundee. The moment the Liberals of that constituency showed a preference for Mr. Lense, a local favorite, Burns refused to contest the seat, and so informed the friends who were pushing him. The Liberals are certain to nominate Burns for the first seat that becomes vacant in Eugland or Scotland and they will just as surely elect him.

A rumor was in circulation for two days

A rumor was in circulation for two days that Burns would lead a widely organized strike of railway employes as soon as he should have brought the dock-yard strike to an issue, and a sudden and sharp decline in railway shares was the result. Such a strike is not likely at present, however, although there is much dissatisfaction among the employes of all the principal lines.

Messrs. Burns and Tillet, the representatives of the strikers, to-day, on behalf of the men, signed the agreement entered into

Johnstown Gets 81,600,000.

HARRISBURG, Pa., Sept. 14.—The flood re-lief commission to-day completed its consideration of the question of final distribution of the fund still in its hand, and agreed to give Johnstown \$1,600,000 now. This will be distributed on about the same basis as the first distribution. Up to this time the commission has received \$2,605,114, and has on hand to-day \$1,666,456, subject to contracts not yet completed, amounting to \$43,-600, and appropriations to other parts of the State, \$84,190. In the Conemaugh valley \$769,382 has been expended, and in other parts of the State, \$169,275. Various subscriptions are still being received by the commission. The following letter was received by Gayarran Beauer to day from ceived by Governor Beaver to-day from the Lord Mayor of Dublin:

MANSION HOUSE, Dublin, Sept. 2. Sir-Following my remittances of £1,000, £1,000 and £500, respectively, in aid of the sufferers by the Johnstown disaster, I have now the pleasure to transmit for the same purpose, a bank order in your favor for £200, and I shall be glad to hear that it has duly reached you. Any further small balance which may become available will be remitted after the audit of the

I take the opportunity of expressing directly to you an assurance of the deep and universal sympathy excited in this country by the news of the terrible disaster. The people of Ireland have observed with admiration the great and strenuous efforts made under your direction to mitigate the effects of the calamity, and they hope that its evil consequences upon the presenting that its evil consequences upon the prospering energy of the Conemaugh valley may speedily pass away. I remain, dear sir, your faithful servant, Thomas Sexton, Lord Mayor.

The Cut in Freight Rates.

CHICAGO, Sept. 14.—The action of the Chicago, Burglinton & Northern road in reducing freight rates between Chicago and St. Paul to a 40-cent basis claimed the undivided attention of the representatives of the Western and Northwestern lines at their meeting to-day. It was agreed at the outset that the rates would have to be met, but the question that provoked the hottest discussion was whether the other roads could put the reduced rates into effect on the same date that the Burlington & Northern tariff becomes operative. General Freight Agent Hamblin, of the Burlington & Northern, calculated that he would have the reduced rates in force at least one day before any of his competitors and secure all the business for that length of time. But the other roads refused to see the matter in that light. They argued that they were no longer They argued that they were no longer bound by the agreement to give five days' notice, as that agreement was understood to apply only to the road that should take the initiative in announcing a proposed change. The matter was finally referred to Chairman Faithorne, who ruled that the roads desiring to meet the action of the Burlington & Northern need not wait five days before doing so. It will now be necessary for the Western and Northwestern roads to revise all their local tariffs to conform to the new basis. There seems no doubt that Missouri river rates will also doubt that Missouri river rates will also be pulled down. The most serious result will probably be a reduction of the Iowa distance tariff.

Negro-Haters at Work.

MERIDIAN, Miss., Sept. 14.—The most re-cent reports of the race troubles in Jasper county show that they are assuming larger proportions. On Sunday night last a crowd of masked men congregated at a small ne-gro church about seven miles west of Paulding, held a mock service and fired the building. Near this church was a negro school-house and this also was fired. The dwell-ing-house of Alfred Lossiter and another house were also visited, and, after the discharge of fire-arms, causing much alarm, these two dwellings were also fired. The white man, was also visited. Mr. Hair and family were much abused, but no bodily harm offered.

Several negroes have been arrested in Newton county for inciting an insurrection and are now in jail at Decatur. Two of them confessed that there was an organization of the blacks, and that they were to unite on Sunday the 15th and commence the war. Further arrests of some of the leading negroes discloses the fact that there is an organization, but for political purposes only. The white people of the county are organizing and arming themselves with the most approved weapons, over five hun-dred guns having been sold at Newton. It is not now expected that an outbreak will be made at any time and matters are quiet-

What the Boulangists Are Doing.

Special to the Indianapolis Journal. LONDON, Sept. 14 .- As the time for the French elections approaches the omens do not altogether favor peaceful balloting.
General Boulanger, after a series of
manifestoes against the high court and the
government and publishing his lists of
candidates for the arrondissements of the
Department of the Seine, has succeeded in Department of the Seine, has succeeded in having large numbers of campaign documents distributed throughout the whole district and having it actively canvassed by agents. It is quite evident that the Boulangists intend to try to carry out their programme and secure a Chamber of their own faction. The fact that Boulanger cannot legally be a candidate and therefore cannot be returned, counts for nothing in their calculations. counts for nothing in their calculations.

It is also evident that the government is resolved to maintain its authority and to secure public order during the election, but the signs here enumerated do not portend a quiet election contest. Very much depends upon the at-titude taken by the workingmen's associa-tions. They have hitherto maintained a reserve which leaves it a matter of doubt whether they will support or oppose the government.

Treasury Rulings.

Special to the Indianapolis Journal. Washington, Sept. 14.—The Treasury Department has received a letter from the surveyor of customs at Cincinnati, O., transmitting the application of Mr. Claypoo!, professor of science in Buchtel Col-lege, for a refund of duty levied on certain microscopes and accessories imported for the use of the college. The importation consists of one large and forty small microconsists of one large and forty small microscopes, with the necessary attachments, and ten razors. Professor Claypool states that the small microscopes are used by the students in the study of sciences, each student being furnished one by the college and that the razors were used as "slicing-knives" in preparation of subjects for the microscopes. The department has decided that the microscopes, being intended for scientific and educational purposes, are exempt from duty, and under the Department's ruling of Jan. 3, 1888, the razors may also be admitted free in view of the use for also be admitted free in view of the use for which they are intended, and the collector has been authorized to refund the duty

The Missing Bridegroom.

Special to the Indianapolis Journal. FORT WAYNE, Ind., Sept. 14.—New developments in the case of Robert Mackie, the missing bridegroom, came to light to-day by a telegram from W. R. Kimball, of Montreal, agent for the Fort Wayne Jenney Electric-light Company, to Mr. McDonald. Mr. Kimball states that he saw Mackie in that city last Tuesday. The telegram must Burns has come out of the fight with flying colors. He is complimented on all sides, and no man in England has a more promising future than he. Another thing which has greatly added to his popularity is his action with regard to the parliament-

latter, this evening, stated that there was nothing new, and that the absence of Mackie, who was not chief electrician, but superintendent, of the factory, was a matter of no importance to the company. Another rumor is that Mackie was called to Montreal by a telegram, and that the sender was a woman, and that the mission of Chief Diehl is to straighten matters at that point. Nothing new has been heard from Cooperstown.

Conference of Charitles and Corrections. San Francisco, Sept. 14.—At the Conference of Charities and Corrections, to-day, A. O. Wright, of Wisconsin, read a paper on the employment of paupers in State institutions. At the conclusion of the session Dr. Wyman reported that the commit-tee on time and place had selected Balti-more as the place for holding the next annual conference, in May, 1890.

Catholic University Dedication.

Washington, Sept. 14.—The dedication and opening of the new Catholic University, near this city, will occur Wednesday, Nov. 13, and invitations to the ceremonies are now being issued. All the bishops of the Catholic Church in the United States, Canada, England, Ireland and Scotland will be invited, together with the heads of European and American educational institutions, the President of the United States, the members of his Cabinet, Congress, the judiciary, etc. Cardinal Gibbons will conduct the dedicatory ceremonies. Pontificial mass will be celebrated in the new chapel of the university at 11 o'clock. The sermon will be delivered by at 11 o'clock. The sermon will be delivered by Bishop Gilmour, of Cleveland. The university courses will be formally opened at 4 o'clock. Bishop Spalding, of Peoria, Ill., will make an address, and Professor Schroeder will read a Latin poem.

The Late Hon. S. S. Cox's Estate.

Washington, Sept. 14.—The late representative "Sunset" Cox was a large owner of real estate in this city. Shortly before leaving for his Western trip, early this summer, he had arranged for the auction of two residences on Twentieth street, near G street. The new houses are in the rear of the fine stone residence which he recently purchased on Dupont Circle. He had occupied this house before his appointment as minister to Turkey, and upon leaving the country he sold it. Upon his return and his election to Congress he dedecided to build a house here. The ground fronting on New Hampshire avenue and adjoining his former residence on the south was purchased and he built a handsome house there which he occupied last winter. Last spring he bought back his former residence. His real estate interests in that one locality probably amount to over \$1,000,000. Special to the Indianapolis Journal.

Deaths of Indiana Citizens.

Special to the Indianapolis Journal Wabash, Ind., Sept. 14.—This forenoon John Thorne, of Oswego, Kosciusko county, died at the home of his brother, near this city. Mr. Thorne was well known to be a somnambulist, and last night, when a peculiar spell came upon him, but little was thought of the matter, and his relatives did not realize until the last moment that death was imminent. Deceased was seventy-five years old and one of the pioneers of Kosciusko county. Death resulted from brain trouble. Special to the Indianapolis Journal.

HUNTINGTON, Ind., Sept. 14.—Henry F. Drover, a prominent business man of this city, and one of the leading Knights Templars of northern Indiana, died this evening at 7 o'clock, after a sickness of less than twenty-four hours. The whole city is shocked, and the most profound sorrow prevails. The cause of death was heart disease.

Astronomical Phenomena.

UTICA, N. Y., Sept. 14.—Prof. C. H. F. Peters, of Litchfield Observatory, Hamilton College, discovered an asteroid on Aug. 25. The new planet ranks as No. 287, in the asteroid group. The first computations appeared to show an un-precedented fact in astronomy that a portion of the new asteroid's orbit was within a portion of the orbit of Mars. All asteroids here-tofore discovered have their orbits outside that

J. N. McCullough to Take Mr. Thaw's Place. PITTSBURG, Pa., Sept. 14.—It is stated in railway circles that J. N. McCullough, first vice-president of the Pennsylvania Company, will be elected a director of the Pennsylvania railroad, to fill the vacancy caused by the death of William Thaw. This has been decided upon, and it is stated by those high in railroad authority that Mr. McCullough will accept. Mr. McCullough's duties will not be greatly increased, and the position, it is said, is tendered the distinguished railroad man as a compliment, and as a recognirailroad man as a compliment, and as a recogni-tion of his abilities. The election of Mr. McCullough will be entirely satisfactory to the Thaw

Overpayments on Pension Vouchers. Washington, Sept. 14.—An examination of the June accounts of the Washington city pension agency, by the pension division of the Third Auditor's office, shows an overpayment of \$2,100 on one voucher. A number of smaller overpayments have also been recently discovered in the accounts of other pension agencies. These errors are said to have resulted from an effort to in-crease the work of the clerks beyond their capacity. The clerks are now required to maintain an average of 1,000 vouchers a day, and it is contended that the interests of the government would be better protected if this average was reduced to 500 vouchers per day.

Found Her Long-Lost Son.

GRAND FORKS, D. T., Sept. 14.—A pathetic and romantic story is that of Mrs. Gruer, of Otter Tail county, Minnesota, who arrived here to-day. She is sixty-five years old and has during the past ten years been in search of her son, who was stolen by Chippewa Indians when but four years old. All possible clews have been followed without result until now at last she has received a communication from a friend at the Turtle mountains, stating that her son is there and she is en route to that reservation for the long-lost

Reno Monument Unveiled.

HARRISDURG, Pa., Sept. 14.—The Reno monu-ment was unveiled at the Antietam battle-field to-day at the spot where General Keno was killed. Col. R. H. I. Goddard, formerly of the Ninth Army Corps, presided, and the unveiling was performed by former members of General Reno's staff. Gen. O. B. Wilcox, U. S. A., delivered the oration. The monument is of granite and nine feet high. It has the word "Reno" on its second base, and on a polished front is carved the badge of the Ninth Army Corps and dates.

Why He Struck the Prime Minister. Rome, Sept. 14.—The injuries inflicted on Prime Minister Crispi by a lunatic, who hit the Minister with a stone yesterday, will compel him to undergo medical treatment for a week. The name of the man who committed the assault is Caporali. He states that his action was due to the fact that Signor Crispi, who was sitting in his carriage beside his daughter, looked happy and contented, while he had had nothing to eat for two days. Six persons have been arrested for complicity in the assault upon the Prime

Noisy but Rapid-Firing Rifles.

LONDON, Sept. 14.—At the Austrian military manœuvres at Leitomischl on Thursday the new Mannlicher repeating rifles were used. The results were very impressive to say the least, the deafening roar of the continuous discharges dealening roar of the continuous discharges awing even the veterans. A striking defect in the efficiency of the rifles was apparent in the fact that the defenders exhausted their ammunition in five minutes, leaving them at the mercy of the enemy; but the umpires decided that the enemy was annihilated, evidently believing noise as potent as bullets.

Convicts to Be Used in Mines.

NASHVILLE, Tenn., Sept. 14.—The convicts of the Tennessee penitentiary were leased at auction, at the State Capitol to-day, for a term of six years. The lease was secured by the Tennessee Coal, Iron and Railroad Company, which was the only bidder. The consideration was \$100,000 per annum, the minimum allowed by the act authorizing the lease. Nearly all of the convicts will be employed in the company's mines, where a large number are now at work.

Guatemala and Mexico at Peace. CITY OF MEXICO, Sept. 14 .- The official organ of the government says that no true difficulties of the government says that no true difficulties exist between Guatemala and Mexico. The only incident which was likely to cause trouble was the explosion of a petard which was thrown against the Mexican legation in the Guatemalan capitol. For this act Guatemala apologized, and her officials are now searching for the man who three with petard, for the purpose of punishing

The Anti-Slavery Congress. NEW YORK, Sept. 14.-The Catholic News has

received the following from its correspondent at Rome: "Cardinal Lavigerie, who is now in Paris, will leave there for Rome, where he will consult with the Pope as to the date for holding the anti-slavery congress. It is the intention to wait until the arrival of Stanley in Europe in order to learn from him the exact condition of the black tribes of Adrica." Seeking Release from Prison.

DUBLIN, Sept. 14.—The Freeman's Journal publishes a letter from Patrick Delaney, who was implicated in the Phœnix Park murders, and is now in prison, addressed to a prominent official at Dublin Castle, in which the convict piteously claims his release from prison as a reward for giving evidence for the London Times before the Parnell commission.

The Charges Against Consul Edwards. Claims to Be Tascott.

BUFFALO, N. Y., Sept. 14.-A man who calls himself Tascott, the murderer of the Chicago millionaire, Snell, has been arrested here. He had been hiding on a canal boat for months past, but was given up to the police. Word has been sent to Chicago asking for a detective to come on and identify him. He bears a singular resemblance to the description given of the missing man. Killed by the Cars. Special to the Indianapolis Journal.

LINCOLN, Ill., Sept. 15.—The son of Mr. Crowder, station agent of the Chicago & Alton railroad at this place, fell under a train this afternoon while playing in the switching yards, and had both legs cut off and was dreadfully mangled about the body. He lived but a short time. Stranger Found Dead. Special to the Indianapolis Journal.

HUNTINGBURG, Ind., Sept. 14.—The dead body of a handsome and well-dressed man was found on the Air-line railroad track, north of this city, this morning. Death was caused by apoplexy. A gold watch and considerable money was found on the body. A card in his pocket bore the name of Robert McGuire. Losses to the Oystermen. NEW YORK, Sept 14.—It is claimed by the wholesale cystermen that cyster-planters have sustained a loss of from \$1,000,000 to \$2,000,000 by reason of the late storm, and that some of them have been forced out of the business and into bankruptcy.

Noted Bandit Sentenced.

Wonderful Wood Heater

It is the Poor Man's Friend! The Rich Man's Economizer! A BASE BURNER in the fullest meaning of the term. Retains fire from 12 to 48 hours. It consumes equally well all kinds of wood, rough, green or dry. Two or three cords of four-foot wood cut once in two is sufficient for an ordinary winter. It consumes its own ashes, throws no sparks to fire your building, but retains the heat in the room. It is clean, no dirt, gas or dust to annoy. Requires no kindling of mornings, always having plenty of fire and a warm room. It is as well adapted for school or office rooms as for the family. As a fact, it is the grandest stove of the age, and any one having used this stove cannot be induced to do without it. Corners on Coal have no no effect on the OWEN STOVE. If not en sale at your trading place, order direct from me. Liberal your trading place, order direct from me. Liberal discount to the trade. I will deliver this stove at any freight depot in the United States. freight added. For each in advance \$1 less. Orders by mail promptly filled. Send for circulars.

The Old Guard, Sanford's Ginger

Sanford's Ginger Is the Best of all known Gingers.

With sleepless vigilance SANFORD'S GINGER guards the home against a thousand dangers that live in air, water, food and climate. Never has it been found wanting in any emergency, and hence it has become enshriped in countless homes as the realization of all that is preventive and curative in medicine and condiments. Once introduced into the household it can never be displaced. It is its own best advertisement. Thousands say daily, "Use SANFORD'S GINGER; it is the best of all gingers."

Composed of imported ginger, choice aromatics, and the best of medicinal French Brandy, SAN-FORD'S GINGER is vastly superior to all other gingers, and care should be exercised in purchasing, lest some cheap, worthless, and often dangerous ginger be substituted. Ask for

GUN WA, An Educated Chinese Physician Who cannot, under American laws, practice medicine, has a line of prepared Chinese herb and vegetable specifics for the cure of various diseases, which he sells for a small sum. They are quick to act, perfectly harmless, pleasant to take, and never fail to cure. Among the diseases which these remedies quickly cure are Cancer, Tumors, Scrofula, Rheumatism, Catarrh, Female Weakness, Paralysis, Bronchitis and Lung Troubles, and all blood and chronic diseases.

NO CHARGE FOR ADVICE OR CONSULTATION, as Gun Wa does not practice medicine. A friendly talk costs nothing. If you cannot call write to Gun Wa, inclosing 4c stamps, for a history of his life, or a circular on Cancer, Rheumatism, Catarrh, Piles, Female Weakness, Tape Worm, or his book on nervous diseases.

Gun Wa's family have been famous physicians in China for fourteen generations back, and Gun Wa might almost have been said to have inherited his wonderful SKILL and aptitude in compounding medicines. If you are suffering do not delay. but call and consult this noble representative of a persecuted race.

GUN WA WILL CURE YOU,

Or tell you, in all kindness, that he cannot, but all of the above-mentioned troubles which Gun Wa calls "AMERICAN DISEASES" (they having been mastered and eliminated in his country), quickly and permanently yield to these Nature's Cures, which are the result of thousands of years of research and study in the home of Confucius, and are considered positive specifics among the upper and educated classes in the Celestial Empire.

THOUSANDS OF TESTIMONIALS are sent daily to Gun Wa, whose celebrated Chinese Vegetable Medicines are recognized the world over by their healing and life-giving qualities. They are made of rare medicinal herbs, imported from China for this sole purpose, and are not in use nor known to any physician in the United States. Gun Wa is not allowed to practice his profession nor to visit the sick, as his limited knowledge of the English language prevents his graduating in any of the American colleges of medicine. He has, however, a merchant's privilege to sell his remedies. Call in and see his handsome Oriental Parlors at 25 West Wash ington street, and have a pleasant interview with the famous doctor. The consultation will be FREE, and the medicines are sold very low.
